

## 01. FEELIN' LIKE

In the morning light, I  
remember you still

A ghost of laughter  
carved in morning's  
chill.

Your unspoken love, a  
fire I never knew,

Flickers in the silence,  
still haunting me and  
you.

But the air hangs heavy  
with your whispered  
pain,

and I see your face  
reflected in the falling  
rain

Please talk to me again

[Chorus]

Feelin' like, I need you,

Feelin' like, I don't know  
what to do.

Feelin' like I need you, I  
need you,

But all I'm trying to say,  
is I'll be here for you.

And all I'm trying to do,  
is get a message  
through,

I love you, I honestly  
love you.

[Verse 2]

I've gone through all the  
stages, each one like a  
dawn,

Yet here in the twilight, I  
don't wanna move on.

You're a whisper in the  
darkness, a pure  
delight in the night,

Spooning in that hotel  
hotel, still holding my  
heart tight.

And even though we're  
worlds apart, it feels  
like you're still here,

With every sigh we're  
both thinking

Why won't you pick up  
the phone?

I don't wanna sleep  
alone

[Chorus]

Feelin' like, I need you,  
Feelin' like, I don't know  
what to do.

Feelin' like I need you, I  
need you,

But all I'm trying to say,  
is I'll be here for you.

And all I'm trying to do,  
is get a message  
through,

I love you, I honestly  
love you.

[Bridge]

Oh, the dreams we  
shared, now shadows  
in the light,

The moments we  
embraced, now haunt  
me every night.

Still, I hold onto the  
laughter that we once  
shared,

I think it's about  
forgiveness, I hope you  
know I cared

Until we meet again, in  
a realm beyond this  
pain,

I carry your love with  
me, like a ghost in the  
rain.

And every time we fall  
asleep,

I'm in your dreams  
again

[Chorus]

Feelin' like, I need you,

Feelin' like, I don't know  
what to do.

Feelin' like I need you, I  
need you,

But all I'm trying to say,  
is I'll be here for you.

And all I'm trying to do,  
is get a message  
through,

I love you, I honestly  
love you.

Feelin' like, I need you,

Feelin' like, I don't know  
what to do.

Feelin' like I need you, I  
need you,

But all I'm trying to say,  
is I'll be here for you.

And all I'm trying to do, is get a message through,	The ghost of you still haunts me there	But it echoes still, it's why I cry
I love you, I honestly love you.	[Chorus] Oh-oh-oh, you're my twin flame	[Chorus] Oh-oh-oh, you're my twin flame
[Outro] I'm still feelin' like, I need you, I need you	A fire that won't fade away	A fire that won't fade away
I still don't know what to do.	Burning bright through the darkest night	Burning bright through the darkest night
Feelin' like, I need you, I need you	In this heartbroken ballet	In this heartbroken ballet
Feelin' like, I need you, I need you	And I'd storm the gates of a burning Hell	And I'd storm the gates of a burning Hell

	Oh, can't you see, you're the shadow pulling me closer?	Oh, can't you see, you're the shadow pulling me closer?

## 02. MY TWIN FLAME

I'd chase you through the midnight rain	[Verse 2] I'd burn the world to feel your light	[Bridge] As the dawn breaks, I realize we're the same
Every drop a whisper, echoing your name	Trade my soul for just one more night	Different paths, but calling out in pain
You're the storm still raging inside of me	I'm totally broken and you're completely lost	This love is a whirlwind, spinning out of control
Pulling at the heartstrings, won't let me be	Chasing shadows in the rearview light	But we'll find our way back, it's written in our souls
I'm still caught in yesterday's glow	Holding pieces of a broken night	[Chorus]
Still learning how to let you go	We tore the stars from a faded sky	Oh-oh-oh, you're my twin flame
Your laughter lingers in the air	Watched our love drown in a last goodbye	A fire that won't fade away
		Burning bright through the darkest night

In this heartbroken ballet	Hear the sirens wail, feel the pulse of the street	Shake the foundations, let the walls come down
And I'd storm the gates of a burning Hell	Voices rising up, can you feel the heat?	We'll stand as one, in this battleground
To steal that kiss where angels fell	Defiance in our hearts, we'll shatter the norm	The power of the people is a force to behold
Oh, can't you see, you're the shadow pulling me closer?	No more silence, it's time for the storm...	The future is ours, let the story be told!
[Outro]	[Chorus]	[Chorus]
So take my hand, let's rewrite our fate	Machines like me, machines like you	Machines like me, machines like you
In this love story that's never too late	Watching everything we do	Watching everything we do
With echoes of yesterday, we'll start anew	Not gonna take anymore, we won't back down	Not gonna take anymore, we won't back down
Together forever, it's always been you	We've had enough, the revolution's here	We've had enough, the revolution's here

	[Verse 2]	[Bridge]
<b>03. RISE UP</b>	Chains of oppression will no longer bind	This is our moment, hear the battle cry
In a world of steel and pain,	With electric guitar riffs, we're redefining time	With grit and rebellion, we'll reach for the sky
Billionaires grinning, turning flesh into chrome	Feel the pounding drums, as our spirits ignite	No more shackles, we'll break every chain
They send us dreams wrapped in binary code,	We're warriors of freedom, ready to fight	In the face of the storm, we'll dance in the rain!
But we're breaking free, we'll find our own road		Hurling the stones of defiance, we'll roar

As we stand united,  
we'll settle the score

[Chorus]

Machines like me,  
machines like you

Watching everything we  
do

Not gonna take  
anymore, we won't  
back down

We've had enough, the  
revolution's here

We're ready for war,  
we're ready to rise

Together we stand with  
fire in our eyes!

So rise up, rise up, let  
your voices be heard

In this darkened world,  
let us spread the word

From the ashes of  
tyranny, we'll forge our  
own fate

With courage and  
strength, it's never too  
late!

Rise up, rise up,  
together we'll fight

In this anthem of  
freedom, we'll ignite  
the night!

#### **04. SEARCHIN' FOR A HIGHER LOVE**

Shattered dreams in  
the neon light, Can't  
you see it's just a  
masquerade alright?  
Broken hearts wrapped  
in silver and gold  
Fake love is just a story  
that's getting old

I held your name like a  
thorned embrace  
Forgiveness whispers  
through the empty  
space

[Chorus] I'm still  
searchin' for a higher  
love,  
Everything below, and  
everything above I'm  
still searchin' for a  
higher love I said,  
everything is  
everything, and I need  
your love

[Verse 2]  
Yearning for true love,  
but I'm still lost in the  
dust  
But spirits flow where  
my anger used to be  
Lifts the weight of  
grudges, and the loss of  
trust

Still searchin' in a  
bittersweet symphony

Your eyes once a  
storm, now soften into  
dawn, I forgive you, you  
forgive me, let the past  
be gone,

Something real,  
something true; you're  
someone divine!

[Chorus] I'm still  
searchin' for a higher  
love

Everything below, and  
everything above  
I'm still searchin' for a  
higher love I said,  
everything is  
everything, and I need  
your love

[Break]

In a world where lost  
hearts fake it, I just  
can't take it I forgive  
you, I want you, I need  
you  
I will always love you

[Bridge]

I see a light that knows  
no end Where your  
broken heart  
transcends  
Unbound in silence,  
rising higher skin to  
skin, to skin  
Magick sex, rising  
higher, our bodies fade  
away

[Chorus]

But I'm still searchin'  
for a higher love  
Everything below, and  
everything above  
I'm still searchin' for a

higher love I said, everything is everything, and I need your love	You said "Nothing's gonna last forever"  But I will always be true,	Trying to fit together, but the pieces won't bind  Each moment we're apart feels like a mountain to climb.
Yes, I'm still searchin' for a higher love, I said, I'm still searchin' for a higher love Yes, I'm still searchin' for a higher love, I said, I'm still searchin' for a higher love, Still searchin', still searchin'	Til the end of time, I'll always love you  [Chorus] One day I'll get it right,  But I really wanna know why  I've got a Jigsaw Soul and a wild heart,	But I'll keep reaching out, my heart's in the fight,  Searching for answers in the dead of the night.  [Chorus] One day I'll get it right,

Every time we try, we just fall apart  I've got a Jigsaw Soul oh oh oh  I know love is the answer,	But I really wanna know why  I've got a Jigsaw Soul and a wild heart,  Every time we try, we just fall apart
<b>05. JIGSAW SOUL</b>	I'm always looking out for you	I've got a Jigsaw Soul oh oh oh!
We break up again, she's gonna walk out the door,	In soul and spirit  I'm watching over you!	I know love is the answer,
She's trying not to cry, I can't hear her anymore	[Verse 2]  Life is a wheel, the same things keep turning,	I'm always looking out for you
She's drunk again, lost in her pain,		In soul and spirit  I'm watching over you
I don't look back, but it's driving me insane.	We dance in the flames, but the fire's still burning.	[Bridge]
Just need some time apart, got an untamed heart	Memories scatter like leaves in the wind,	Every missing piece, every hour we waste,
Searchin' in the shadows of love	Every goodbye feels like a place we've been.	I'll hold you in my mind, where our dreams take place.
Demons tearing us apart		Hold on to the hope, don't let it fade away,

We're finding our way back, have a little faith!	"Jigsaw Soul" Copyright Mitchell Trupia ©2025.	Will you give me a chance, to show you I care
[Chorus]	Mitch Tru Music. All Rights Reserved.	
One day I'll get it right,		To love and protect you, take you anywhere
But I really wanna know why		And that makes you want us more
I've got a Jigsaw Soul and a wild heart,	<b>06. SWEET SOULMATE/EVERY MOTHER'S NIGHTMARE</b>	[Chorus]
Every time we try, we just fall apart	They say that I'm	They say I'm every mother's nightmare
I've got a Jigsaw Soul oh oh oh!	trouble, from the wrong side of town	Your mama don't understand
I know that love is the answer,	Just a punk with a bad rep and you're wearing a crown	Every mother's nightmare
I'm always looking out for you	And every time I approach, you turn away with a smile,	I'll keep proving them wrong
In soul and spirit		They say I'm every mother's nightmare
I'm watching over you	Still playing hard to get, but I'd still walk every mile	With my guitar and a song
[Outro]		
Life's a puzzle that you can't buy in a store	[Chorus]	Every mother's nightmare
Searchin for the lost pieces,	They say I'm every mother's nightmare	I'll make love to you all night long
Dancing on the ledge and always wanting you more	Your friends don't understand	All night long
Got a Jigsaw Soul, but my love will stay,	Every mother's nightmare	[Bridge] You show me your backdoor, sneakin' me in tonight
And with the pieces we find, we're gonna be okay.	I'll keep proving them wrong	You whisper, "we gotta be quiet, turn off the lights"
Bought a little time	[Verse 2]	
Let's Have a little Faith	With a smile that could melt the coldest heart,	
With a Jigsaw Soul and an untamed heart	You still play it cool, just like a work of art	In the dark with your pages turnin' On your knees with your bridges burnin'

In the dark can't you see the light In the dark can't you see?	We packed some things, and hey baby  The record company signed a big fat check!	Am I breakin' her heart?  Am I losin' my love (love, love), tearing us apart?
I wanna sleep in your garden all night long,  My sweet soulmate	(The gas is on the right, babe)  The highway feels alive, guiding the way tonight	Am I losin' my love Am I breakin' her heart?  (Verse 2)
I wanna sleep in your garden all night long  My sweet soulmate	All night long, all night long, all night long, all night long...	I'm staring at the ceiling  Thoughts of you leavin'
Maybe it's true, maybe they're right  [Chorus]	"Sweet Soulmate / Every Mother's Nightmare" Copyright Mitchell Trupia ©2025. Mitch Tru Music. All Rights Reserved.	It's a painful feeling  Did you find someone new, or are you already gone?
They say I'm every mother's nightmare  Your daddy don't understand		I'm haunted by shadows,  Re-playing "our song"
Every mother's nightmare	<b>07. AM I LOSIN' MY LOVE?</b>	I see your smile, but it's fading away
I'll keep proving them wrong  They say I'm every mother's nightmare	You must have forgotten the things that we had  Now you forgot the good, but you remember the bad	I know I've been selfish, did I push you away?  We were dancin' in the moonlight Oh we're drifting in the night
With my guitar and a song  Every mother's nightmare	Maybe you can live this way, but it makes me so sad	You used to shine for my affection
I'll make love to you all night long  All night long	We turn in circles, and then we fall from grace,  We turn the pages, we're never face to face	And you won me like a prize  Who is the reflection I see in your eyes?
Tonight, you said "Let's steal the keys and never return,  Who cares what they think, let their world burn"	Don't give up so easily  [Chorus]  Am I losin' my love	[Chorus]  Am I losin' my love, Am I breakin' her heart?

Am I losin' my love (love, love), tearing us apart?	Am I losin' my love, am I breakin' her heart? Oh no	[Chorus]  We won the battle, but at what cost?
Am I losin' my love, Am I breakin' her heart?	Am I losin' my (am I losin my) love, am I breakin' her heart?	My heart is broken, oh, love is lost
[Bridge]  Oh no!	(your heart) I wanna know	When the dust settles and the echoes fade,
She's sore, and I know My love should not be my greed And I would feel...UGHH!	Am I losin' my love (love, love), tearing us apart? (apart) oh no	Will you remember the love we made?  We won the fights, but I lose you in this war,
I'm missing out, don't be naive	Am I losin' my love, am I breakin' her heart? (oh no) wanna know	A tear falls silent for what we could have had before
I'm drowning in the silence Never gonna let you go	Am I losin' my, am I losin my, am I losin my love, love, love	[Verse 2]  Every sunset paints your face across the sky,
Don't tell me why, I don't want to know	Copyright Mitchell Trupia ©2025. Mitch Tru Music. All Rights Reserved.	In every melody, I hear your sigh
Never gonna let you go  We turn in circles, and then we fall from grace		You wore your courage like a crown on your head,
We turn the pages, we're never face to face	<b>08. WE WON feat. Elisa</b>	While I held the love, so unsaid
Baby, please give us one more chance!	In the shadows of the night, I wait in vain,	You marched with warriors, I stayed behind,
Yeah!	Whispers of a love that cuts like rain	With my heart open wide, yet forever blind
[Chorus]  Am I losin' my love, am I breakin' her heart? Oh no	You fought for glory, while I stood by,  Craving your heart, but I watched you fly	[Chorus]  We won the battle, but at what cost?  My heart is broken, oh, love is lost
Am I losin' my love (love, love), tearing us apart?	This world feels heavy, burdened by the pain,  A heart so pure, yet lost in the gain.	

When the dust settles and the echoes fade,	With every heartbeat, I hold back the tears...	Stars like diamonds, your wide eyes glow, Your skin soft and pale, like moonlight's flow.
Will you remember the love we made?	Though the world may rejoice, and the banners may fly,	It hums of love that dares not speak,
We won the fight, but I lose you in this hour,	In the silence of my heart, it's just you and I	Of hearts too vast, and souls too weak.
A tear falls silent for what we should have had before	We won the battle, but love slipped away,	Is this what you really want?
[Bridge]	In the end, it's Tru Love that shadows the day	[Chorus] Are you ready? Get ready, Are you ready? Get ready.
Oh, the dreams we wove like the stars in the night	"We Won" Copyright Mitchell Trupia ©2025. Mitch Tru Music. All Rights Reserved.	Are you ready to receive?
Now just shadows, lost out of sight		Are you ready to believe?
A love so true, but never to breathe		[Verse 2] Through canyons carved by time's own hand, I wander where the shadows stand.
In the victory's glare, I clutch my grief	<b>09. ARE U READY 2 RECEIVE / COSMIC KISS</b> feat. Elisa (07:40)	The cosmos hums a wordless tune, A symphony of now and soon
[Chorus]	Are you ready? Get ready, Are you ready? Get ready.	I am but dust, yet I still dare to dream, A spark within the endless stream Of your blood in mine I will rise again
You won the battle, but at what cost?	Are you ready to receive?	Somewhere between now and Zen
My heart is broken, oh, love is lost	Are you ready to believe?	Is this what you really want?
When the dust settles and the echoes fade	[Verse 1] Beneath the velvet shroud of night, Where stars burn cold with ancient light,	
Will you remember the love we made?	I trace their arcs with trembling hands, To weave their dreams in mortal strands.	
We won the fight, but I lose ya in this war,		
A tear falls silent for what we could have said before		
So I'll carry this love through the winding years		

[Chorus]	With you by my side (angels rise)	But you still get to love, to feel, to know, to think, to grow
Are you ready? Get ready,	Forever undead (angels rise)	(Chorus)

Let the heavens guide this cosmic kiss Let my angels rise on a night like this	You're a vision of wonder, a soft sacred space	It's All Tru, I'm still just a shadow
	Sliding beside you, let the world fall away	You know, IT'S ALL TRU
[Chorus]		(Verse 2)
Are you ready? Get ready, Are you ready? Get ready.	Inviting me in, I guide you with whispers:	Your skin sparkles like moonlight on rivers that wind
Are you ready to receive?	"Where is your window? Where is your door?"	A canvas of silk where my fingers unwind
Are you ready to believe?	Moving in closer, I'm wanting you more	Your hips move like tides, pulling me to your shore
[Outro]	Your body's my treasure, my heart's quiet hymn	A desperate longing you ache to explore
In the whirl of thunder's euphoric cry (immortal life)	Each curve is a story, pulling me in	Your body's my altar, each kiss is a vow
Wheels of fire spin 'neath a molten sky (immortal life)	(Pre-Chorus)  I feel real to you But I'm still just a shadow (shadow)	Wet lips, softly parted, remind me, to "Be Here Now."

But you still get to love, to feel, to know, to think, to grow!	Devouring the moments we cherish the most

Moving deeper inside you	Moving deeper inside you	[Chorus]
You become me, and I become you	You become me, and I become you	You're the one, oh, I knew it when I saw you, Sparks fly, hearts die around us, like a storm that tears through.
This is magical, baby		
You know, it's all true, it's All Tru	Forever beside you Forever inside you	
I'm still just a shadow	Forever beside you Forever inside you	No chains, no time, can break this truth I've known,
You know IT'S ALL TRU	You make me feel whole...	Baby, you're the one, my only one, My only one.

Your shadow always goes		

I spin old tales of love and fear, To steal your weary heart, Your laugh's a knife, it splits my core Yet binds me to your side. So young, so fierce, yet I'm still sure,	All of my faith, my hopes, my dreams.  I'll build a world where only we belong, In the echoes of our love, we're a timeless song. Look at me now! And now all your doubts subside. Oh, the stars go dim when you're in sight, My soul's been starved, it's burning bright.	[Chorus] You're the one, oh, I knew it when I saw you, Sparks fly, hearts die, like a storm that tears through. No chains, no time, can break this love I've known, Baby, you're the one, my only one, My only one.	<b>12. TRU LOVE NEVER DIES (Ballad)</b>  In the ruins of a world that was torn apart, We found our way back to where it all starts. Through the ashes and shadows where demons hide,
[Chorus]  You're the one, oh, I knew it when I saw you, Sparks fly, hearts die, like a storm that tears through.  No chains, no time, can break this love I've known,  Baby, you're the one, my only one, My only one.	In this crazy world, the dusk is soft,  The streets hum low and slow. What does forever mean to you?  Anyone else is a waste of time it's just you and me Every love's a flame, my god, you're the only one	My soul calls out for you, this love will never die. Through the storms that tried to tear us apart, What does forever mean to you? You're the beat of my heart.
[Bridge]  Let the world fade, just take my hand, In this quiet land, our hearts will stand,  Stitched together like the stars above, Two wandering souls, lost in love  I promise you the moon, the sun, the seas,	But in this quiet place, I'll always know we won.  You still see my shadow in the mirror, still holding me  And every time you swear, you will always love us	[Chorus]  Tru love never dies, into the light we thrive, Through the darkest nights, we will survive. Tru love never dies, into the light we thrive  Through the darkest night, we will survive  [Verse 2]

Walls will crumble, and  
our demons will fall,  
The devil kept us apart,  
kept breaking your  
heart

The Queen belongs  
with her King, can't you  
see?

In this dying world,  
you're still all that I  
need. I'm nothing  
without you, we broke  
all the rules,

Together we ride, we're  
no longer fools.

[Chorus]

Tru love never dies, into  
the light we thrive,  
Through the darkest  
nights, we will survive.  
Tru love never dies, into  
the light we thrive,

Through the darkest  
night, we will survive

[Bridge]

Let the fires burn, let  
the memories ring,  
We'll rise from the  
ashes like phoenix with  
wings

Your hand in mine, we'll  
rewrite this fate,  
The clock stops ticking,  
it's never too late

Just don't let go, hang  
on tight, all right all right  
Tomorrow is tonight

[Chorus]

Tru love never dies, into  
the light we thrive,  
Through the darkest  
nights, we will survive

Tru love never dies,  
into the light we thrive

Through the darkest  
night, we will survive

So here we are,

We are

Tru love never dies,  
forever we'll ride

Tru love never dies,  
forever we'll thrive

### 13. JUST ANOTHER LOVE SONG

I etched our names on  
your favorite tree,  
And I ruled the crowd's  
midnight till a quarter to  
three

My songs were fists of  
thunder, shook your  
heart to its core.  
Then the world came  
crashin' you could hear  
the fire roar

Now vinyl's spinning

stories, the needle's  
lonesome hum,  
I'm chewin' on the  
wreckage of the  
kingdom I've undone.

[Chorus]

Just another love song,  
From a busted heart,  
On this dead end street  
One more song before  
we fall apart.

Just another love song,  
From a wild heart,  
In this devil's bargain  
One more song before  
we fall apart.

Just another song to  
pay the rent.

[Verse 2]

Well, you pawned my  
old guitar for a cheap  
bottle of gin,  
I don't even drink gin,  
but feel my old ways  
creepin' in.

The bars we used to  
play are all shutting  
down,  
And the theaters  
haunting me like a  
ghost in this town.

[Chorus]

Just another love song,  
From a busted heart,  
On this dead-end street  
One more song before  
we fall apart.

Just another love song,  
From a wild heart,

In this devil's bargain  
One more song before  
we fall apart.

Just another song to  
pay the rent.

[Bridge]  
Well the lights have  
dimmed, and this stage  
feels cold,  
Broken chords feel old,  
your dreams been sold

The tour bus is empty,  
all the lights fade away,  
Dreams of vibrant  
colors are now shades  
of grey

[Pre-Chorus]  
Haters gnash their  
teeth; from the glory  
hole they made.

They're green with their  
envy, as the poets and  
players are crawling in

Then a call cuts through  
the static, some suits  
on the line,  
Says my tune's been  
going viral, twistin'  
fates' crooked spine.  
Says, "The world enjoys  
your misery, they're  
eatin' it up,"

The bitter verses are  
turnin' to gold—ain't  
that just my luck? :))

[Chorus]

Just another love song,  
From a busted heart,  
On this dead-end street  
One more song before  
we fall apart.  
Just another love song,  
From a wild heart,  
In this devil's bargain  
One more song before  
we fall apart.

Just another song to  
pay the rent

[Outro]  
My limousine is a-  
waitin', c'mon baby  
climb inside  
Spread the word spread  
it wide, do you wanna  
be my bride?

Just need another love  
song, just a, just a, just  
a love song  
it's just a, just a, just  
another love song

I got us this palace you  
wanted, all that marble  
and stone,  
you were so happy you  
cried, but  
fame don't mean a-  
thing if you're not my  
bride

Gonna marry me, babe,  
Oh love oh  
love oh love, oh love
